New Office Highlights Concurrent Technologies Corporation's Commitment to Detroit and the Greater Michigan Area

Detroit, Michigan, December 5, 2008 — Concurrent Technologies Corporation (CTC) has broadened its Detroit operations with the opening of a new office in Detroit, Michigan. Located in Detroit Techtown, this new office will support CTC's ongoing work in vehicle power and mobility, and advanced energy systems. CTC's Detroit office address is 440 Burroughs Street, Detroit, MI 48202.

"CTC is pleased to expand our position in the Detroit business community," said Edward J. Sheehan, Jr., President of CTC. "We are proud to be a part of the Detroit business environment reflected in the rebirth of Midtown and are committed to assist in the growth of the region." Individuals wishing to explore career opportunities with CTC in the Detroit area are encouraged to visit our Job Openings Web site at <http://careers.ctc.com/cyberrecruiter/CareersList.aspx?type=LOCATION&location=ALL>.

"This office is focused on supporting applied research and development and transition to production for vehicle power and mobility and advanced energy systems," commented David Schario, General Manager of CTC's Transformational Systems Division. "CTC uses its technology focus to assist in the transformation and continuous improvement of systems and processes, and to accelerate economic development and job creation in the community." The CTC model includes dynamic partnerships and teaming arrangements with Fortune 500 companies, non-traditional technology providers, and government organizations to deliver innovative, value-added, technology-focused solutions to its clients.

Headquartered in Johnstown, Pennsylvania, Concurrent Technologies Corporation (CTC) is an independent, nonprofit, applied scientific research and development professional services organization providing innovative management and technology-based solutions to government and industry. Established in 1987, CTC operates from more than 50 locations with a staff of over 1,400 employees. As a nonprofit 501(c)(3) organization, CTC's primary purpose and programs are to undertake applied scientific research and development activities that serve the public interest. CTC conducts impartial, in-depth assessments and technical evaluations that emphasize increased quality, enhanced effectiveness, and rapid technology transition and deployment. CTC offers a broad range of services and capabilities, coupled with real-world experience. For more information about CTC, visit www.ctc.com.
