Concurrent Technologies Corporation

EHS Policy

It is the policy of Concurrent Technologies Corporation (CTC) to protect and sustain the environment, and to safeguard the health and safety of its employees, clients, contractors, and the public. CTC integrates environmental, health and safety (EHS) consciousness throughout its activities by proactively identifying and managing EHS risks and opportunities. CTC demonstrates leadership internally and externally by developing and deploying advanced EHS technologies and management practices for federal and state government organizations as well as the private sector, nationally and internationally.

CTC accomplishes this through the execution of the following commitments.

Safety

Building, operating, and maintaining safe facilities with a commitment to eliminate hazards and reduce safety related risks, while fostering a proactive safety culture

Pollution Prevention

Preventing pollution and reducing waste in our operations and activities

Participation and Consultation

Empowering and encouraging the active consultation and participation of our employees in the EHS decision-making process

Compliance

Meeting or exceeding the requirements of applicable EHS legislation, regulations, and any other requirements

Continuous Improvement

Striving to achieve excellence in EHS performance by identifying and addressing risks and opportunities through continuous improvement to our management systems and practices

Conservation

Minimizing our energy and natural resource consumption in fulfilling our mission

It is the responsibility of each person working for, or on behalf of the Company to comply with and support the provisions of this policy.

Christopher J. Hamilton
President & Chief Executive Officer
