Corporate Quality Policy

Concurrent Technologies Corporation (CTC) and its affiliate, Enterprise Ventures Corporation (EVC), provide value-added, cost-competitive, and high-quality products and services to ensure client success. We collaborate to deliver full lifecycle solutions that safeguard national security, retain U.S. technological advantage, and ensure the primacy of American manufacturing.

CTC and EVC integrate a culture of quality and proactive risk management throughout their operations to ensure total client satisfaction. We demonstrate this through the following commitments.

Quality

We proactively manage risks by consistently providing quality products and services, delivered on time, that meet or exceed the requirements of our internal and external clients. We are committed to protecting the confidentiality of client information, supporting the growth and development of our employees, and continually strengthening our supply chain to achieve our business objectives and goals.

Effectiveness & Efficiency

We identify and mitigate risks to our operational performance, strive to limit activities to only those required to meet or exceed our clients' requirements, and continuously improve the efficiency of those activities.

Compliance

We systematically identify and manage compliance risks to meet or exceed all applicable internal, regulatory, and statutory requirements.

Continuous Improvement

We use risk and opportunity analysis to drive continuous improvement in our products, services, and the effectiveness of our management systems.

It is the responsibility of each person working for or on behalf of the Company to comply with and support the provisions of this policy.

Christopher J. Hamilton
President & Chief Executive Officer
